- ReactJs
- Django
- Django-Rest-Framework
- Tailwind CSS

Tools/Software

- Git
- Github
- Postman
- Adobe Illustrator
- Figma

Additional Information

- I am deeply passionate about graphic design, engaging in the creation of visually compelling designs as a hobby. From logos to marketing materials, I immerse myself in the art of visual storytelling.
- Outside the lines of code, my canvas extends to the digital realm where creativity knows no bounds. Graphic design isn't just a skill; it's a medium through which I bring ideas to life, exploring the intersection of technology and visual artistry.
